Honorary Fellows citations .......................................... 48 and 49
A warm welcome from
Fiona Smith
Professional Lead for Children and Young People’s Nursing
Royal College of Nursing

Dear Friends and colleagues

I am delighted to welcome you to the first jointly held annual conference with the Royal College of Paediatrics and Child Health. We are indebted to Hilary Cass and Andrew Long for enabling this to happen and look forward to continuing to work together in the future to improve the outcomes for children, young people and their families. I must also pay tribute to Professor Bernie Carter and members of the RCN scientific committee for their hard work and deliberations in what is a new and exciting venture.

In today’s world we have many challenges to ensure that children and young people remain high on any agenda. Working together we undoubtedly have greater influence and wider opportunities to make improvements than operating within our professional silos and profession specific mindsets. The joint plenary sessions will engender a shared understanding, with nurses, doctors and other health care staff able to attend the whole range of sessions on offer throughout the conference.

Children’s nurses have long acted as advocates for children and young people, and their families, ensuring that their voices are heard and facilitating their participation in their own care, as well as in the design of services provided to meet their needs. However only by working with others can we make a significant difference.

I hope that attendees at this conference will take key messages and issues back to their organisation, joining forces to challenge inequities and demonstrating real advocacy in practice to improve the outcomes and experiences of children, young people and their families.

Fiona Smith
Professional Lead for Children and Young People’s Nursing
Royal College of Nursing
Over the last three years, I have frequently had to explain to family, friends, neighbours, and curious taxi drivers what it is that I do. ‘That’s nice, so you’re President of the Royal College of Paediatrics and Child Health’. Puzzled pause. ‘So is that a teaching job then?’ or ‘Does the College have students here in Glasgow / Birmingham / Belfast?’ In the end, I often end up saying ‘Well a lot of it is about fighting the corner for children in a world where the main focus is on adults’.

The Royal Colleges have come a long way since the Royal College of Physicians was established in 1518 to grant licenses to those qualified to practice and ‘curb the audacity of those wicked men who shall profess medicine more for the sake of their avarice than from the assurance of any good conscience, whereby many inconveniences may ensue to the rude and credulous populace.’

Whilst the education and training of paediatricians remains at the heart of all that we do, it has become ever more important for the College to take a strong advocacy role on all matters that impact on the health and wellbeing of children and young people. From campaigning for standardised cigarette packaging or a ban on smoking in cars, to supporting the development of e-learning resources on FGM or lobbying for more resources for child protection or mental health services, advocacy fills every day of my working life and that of many other children’s healthcare professionals. Wherever we may live in the world, when finances are tight, when there is armed conflict or when there is political turmoil, the way we treat our children is a measure of our humanity, ethics and morality.

This Annual Conference, built around the theme of Advocating for Children, is all about bringing people together and making the voice of children’s healthcare professionals stronger, so I am particularly delighted that it is a joint event between the RCPCH and the Royal College of Nursing. Historically and culturally, nurses have perhaps seen advocacy as a core part of their role before doctors became more focused on this important aspect of our work. Suffice to say that we have a lot to learn from each other.

Once again, I would like to thank Andrew Long, the Annual Conference Committee, and the phenomenally hard working RCPCH Events Team for turning wild and logistically impossible ideas into an exciting and thought provoking programme.

Welcome to Birmingham and if our time here together results in better health and life chances for any child in any part of the globe, it will have been a worthwhile endeavour.

Hilary Cass
President
Registration and information desk

The registration and information desks are located in the foyer area on level 4.

The opening times are:

- **Monday 27 April**
  1400 – 1900
- **Tuesday 28 - Thursday 30 April**
  0730 – 1830

Staff on the information desk can provide assistance about any aspect of the meeting and your stay.

Badges

Badges are to be worn at all times, for reasons of security and identification by catering staff. You will not be permitted to enter any room without your identification badge. You should go to the registration desk on level 4 if you lose it or would like to make an additional booking.

Internet access

For free access to internet facilities, please go to the **Cyber Café in Hall 3** (exhibition hall).

WiFi is also available to all delegates at no charge. Select ‘The ICC’ to access wifi.

The RCPCH Annual General Meeting

The RCPCH Annual General Meeting has formal responsibility for approving the President’s and Honorary Treasurer’s annual reports, and for agreeing changes to the governing documents.

It is open to all College members. The AGM will be held on **Wednesday 29 April** between 1800 and 1900 in **Hall 1**.

Lunch

Lunch will be served in **Hall 3** (exhibition hall)

Car parking

There is abundant, secure multi-storey parking available located within **The NIA**, which is just a short walk away from The ICC. The NIA is signposted on motorways and major roads and is marked on most road maps.

To reach our nearest car park, located at sister venue The NIA, the address for satnav users is:

- **Street**: King Edward’s Road
- **Postcode**: B1 2AA

Cloakroom

The cloakroom is open from **0800** each day of the conference and is located on **level 3**. There is no charge to use the cloakroom.

Trade exhibition, Hall 3

The exhibition will be open for the duration of the conference, please note opening times below:

- **Tuesday 28 April**: 1000 – 1900
- **Wednesday 29 April**: 0930 – 1700
- **Thursday 30 April**: 0930 – 1615

King Edward's Road

B1 2AA

To reach our nearest car park, located at sister venue The NIA, the address for satnav users is:
Programme User Guide

The programme has a number of sessions taking place, many of which run in parallel during the afternoon. Below is a description of various sessions taking place which can be attended by all delegates.

**Personal practice sessions**

Taking place everyday in the morning from **0800-0900**.

These sessions are with an expert speaker sharing their views about how they manage a particular paediatric problem. Numbers are limited to ensure the sessions can be highly interactive. **Book your place at the registration desk.**

**Clinical guidelines sessions**

Taking place on Wednesday and Thursday morning from **0800 - 0900**. The RCPCH guidelines sessions cover a range of national evidence-based guidelines. The sessions will focus on key messages and implementation, and be presented by the experts involved in their development.

**Plenary session**

Taking place everyday in the morning: Keynote lectures by leading experts, chosen by the Annual Conference Committee to inspire as well as educate. Complemented by the best hot-off-the-press findings presented by researchers selected to inform the audience and stimulate discussion about what is new, important and relevant to their clinical practice.

**Symposia and workshops**

Taking place everyday with guest presentations and papers selected by the individual paediatric specialty groups and the Annual Conference committee, these sessions contain much to interest the general paediatrician, nurse as well as the specialist audience. You do not have to be a member of the specialty group to attend – all are welcome.

**Skills and simulations in paediatric emergencies**

“Resuscitation skills update” in a unique workshop combining the expertise of ALSG, RC(UK) and RCPCH simulation group”

Running throughout the conference in Hall 4 a team of experienced instructors offer you the opportunity to drop-in and update your key skills in high quality paediatric CPR, intraosseous access in different bone sites and airway management including the newer LMA devices. Pre-booked sessions offer practice paediatric emergency simulations. Complete the paediatric CPR update drop in session and a pre-booked practice emergency simulation for a resuscitation update certificate. Each pre-booked session takes one hour during which you will have the opportunity to take part in two simulations. To reserve a pre-booked session collect a voucher at the registration desk.

**Drop in skills sessions:**

- **Tuesday 28 April** 1100 - 1700
- **Wednesday 29 April** 1100 - 1700
- **Thursday 30 April** 1100 - 1600

**Pre-booked simulation sessions:**

- **Tuesday 28 April** and **Wednesday 29 April**
  - 1045 - 1145
  - 1200 - 1300
  - 1345 - 1445
  - 1500 - 1600
  - 1600 - 1700

- **Thursday 30 April**
  - 1045 - 1145
  - 1200 - 1300
  - 1345 - 1445
  - 1500 - 1600
**Tuesday 28 April 2015 Overview**

Plenary Session I

Room: Hall 1

Chairs: Dr Andrew Long, Vice-President, Education and Dr Caroline Fertleman, Specialty Group Representative (Annual Conference Committee, convener of PEdSIG)

0855–0900  Welcome, Dr Hilary Cass, RCPCH President

0900–0915  Welcome from the Youth Advisory Panel & Parents and Carers Group

0915–0945  Keynote: Seizing the day to improve the lives and health of our children and young people, Professor Sir Albert Aynsley-Green

0945–1000  Abstract presentation: Incidence and clinical associations of acute pancreatitis in children aged 0-14 years in the United Kingdom, Dr AA Majbar

1000–1015  Abstract presentation: Outcome of mild traumatic brain injury (TBI) in children – results from a prospective UK cohort study, Dr P Sharples

1015–1030  Abstract presentation: Baseline characteristics and early mental health sequelae in adolescents presenting after sexual assault, Dr S Khadr

1030–1100  Keynote: Integrating child health services, Kath Evans, Head of Patient Experience NHS England

1100–1115  Q&A

1115–1145  Refreshments and poster viewing  Hall 3
Disability Matters: transforming attitudes to disability

The Disability Matters symposium offers new, practical resources, co-produced with disabled young people and parent carers, that challenge and positively change approaches to disability. We will explore practical examples of reasonable adjustments and give top tips for working with disabled young people. Come prepared to reflect!

Health promotion for the paediatrician: why, what, when and how

Officer for Health Promotion, Professor Mitch Blair, will lead this session highlighting how the College has been contributing to this area over the last four years. Participants will reflect on how they can use the knowledge attained in their day-to-day practice as well as how they might influence and become more involved in wider public health initiatives in the UK. Full programme on page 12.

Spreading improvements in care

The College has recently been commissioned by the Department of Health to deliver an innovative programme, Paediatric Care Online (PCO), to support and enhance the delivery of paediatric care by all health professionals across the UK. The Programme brief proposed the enabling of existing QI network support to reduce risk of harm from paediatric medication error. MEDS IQ is an online platform which collates regionally developed QI resources supporting safer prescribing practice and champions them to QI community across the UK.

Paediatric trauma: get involved in the APLS consensus approach

1145 – 1150 Welcome and overview
1150 – 1210 Presentation of consensus process and recommendations on issues surrounding the management of paediatric trauma
1210 – 1255 Discussion and debate on:
  • Issues surrounding paediatric trauma
  • Changing pathways associated with the introduction of major trauma centres in the UK
  • Supporting the pathway through consensus and training
  • Advocacy roles of clinicians in accident prevention
1255 – 1300 Summary and next steps

What does advocacy actually mean for paediatrics and child health? The next steps – a conversation

This advocacy session is linked to the challenge that Professor Sir Al Aynsley-Green will make earlier in his plenary talk, ‘Seizing the day to improve the lives and health of our children and young people,’ with a discussion about the role of advocacy both within the Colleges and for child health professionals generally. It will provide an exciting opportunity for a dialogue with Professor Sir Aynsley-Green himself, both the President and the CEO of the College, young people and the delegates who attend.

Collaborating with the RCPCH to set and maintain paediatric standards

The College is committed to improving child health outcomes. By working with members, the College uses its influence to set the agenda for education, training, policy and clinical standards and increase the quality of paediatric care across the four nations.

With a programme of work which increasingly relies on the knowledge, expertise and advice of members, paediatricians and trainees have extensive opportunities to influence education, policy and clinical guidance by working with the College.
**RCN SYMPOSIUM: Integrated community services: taking a lead and moving forward**

**Room: Hall 10a**

**Chair:** Lisa Whiting

1145-1155 Introduction

1155-1210 Planning and implementing service change in children’s community nursing, **Miss Gemma Spiers**, G10

1210-1225 Transition from hospital to home: psychosocial adaptation and adjustment in parents of infants with single ventricle heart conditions, **Miss Kerry L Gaskin**, G11

1225-1240 Delivering effective nursing care to children and young people outside of a hospital setting, **Dr Lisa Whiting and Debbie Martin**, G12

1240-1300 Conclusion

**Posters**

A prospective review of psychosocial functioning in parents of infants with complex congenital heart disease going home for the first time following first stage cardiac surgery, **Mrs M Rooney**, G13(P)

A collaborative educative approach to invest in enablement of transition: closing the gap between children’s and adult services, **Mrs Carole Gelder**, G14(P)

**Health Promotion for the Paediatrician: why, what, when and how**

**Room: Hall 11a**

1145-1205 Health promotion - What is your College doing and where might you fit in? **Professor Mitch Blair**, Officer for Health Promotion RCPCH

1205-1300 Obesity - we know what the problem is - what to do in practice and the community? **Dr Vanessa Impey** and **Ms Fiona Small**, Young Mums Support Network

1300-1345 Lunch and poster viewing **Hall 3**

1345-1425 Practical injury prevention and the paediatrician **Dr Nick Mann**, Consultant, Royal Berkshire Hospital

1425-1500 The Vitamin D story - where are we now? **Dr Benjamin Jacobs**, Royal National Orthopaedic Hospital

1500-1530 Refreshment break and poster viewing **Hall 3**

1530-1630 Developing parent/child health information together, **Ms Alison Baum**, CEO, Best Beginnings

1630-1715 Smoking - two windows of opportunity for prevention, **Dr Alan Stanton**, Heart of England NHS Foundation Trust

1715-1800 What have we learned? **Professor Mitch Blair**, Officer for Health Promotion RCPCH

**RCN SYMPOSIUM: Reducing inequalities in health and healthcare**

**Room: Executive room 8**

**Chair:** Marie Marshall

1145-1200 Introduction

1200-1215 A one-year longitudinal study on effectiveness of strategies to engage ‘hard to reach’ looked after children, **Mrs Stephanie Cope**, G15

1215-1230 Introduction to the Well North Project and the potential impact on child health, **Dr Marie Marshall and Dr Helen Hurst**, G16

1230-1300 Conclusion

**Joint clinical standards and PIMMS - developing person centred care**

**Room: Hall 10b**

1345-1400 Welcome, introductions and setting the scene **Chair: Dr Fiona Campbell**

1400-1430 Session one: Education for quality presenters: **Alice Roueche** and **Jane Runnacles**

1430-1500 Session two: Developing QI for general paediatricians presenters: **Dr Annie Moulden**, Monash Children’s Hospital, Melbourne

1500-1530 Refreshment break and poster viewing **Hall 3**

1530-1600 Session three: Four free papers on quality improvement **Chair: Dr Fiona Campbell**

1530-1545 Using multilingual patient education videos to support a prompt and safe discharge from the emergency department, **Matthew Clark**, G591

1545-1600 Empowering parents to manage everyday childhood illness at home, **Dr Rosada Justice**, G592

1600-1615 Team POD: a quality improvement sprint to improve pathology services, **Sarah Blackstock**, G593

1615-1630 Tackling high mortality in a Kenyan District Hospital, **Benjamin Cahill**, G594

1630-1645 Improving discharge summaries – improving quality of care, **Dr Jelena Stojanovic**, G595

1645-1715 Session four: Developing changes that last Guest speaker: **Dr Jonny Taitz**, Director of Patient Safety, Clinical Excellence Commission, New South Wales

1715-1800 What have we learned? **Professor Mitch Blair**, Officer for Health Promotion RCPCH

1800-1815 Summary and close **Chair: Dr Lisa Kauffmann**
Welcome, introductions and setting the scene
Chair: Dr Geoff Debelle and Dr Shade Alu

Session one: Voice of the Child
Chair: Anne Longfield OBE, Children’s Commissioner for England
Communicating with children and young people
- Ruth Marchant - Triangle
- James Rushbrooke - Reconstruct
Panel discussion - How do you walk in the shoes of a child, see the world through the eyes of a child and hear the voice of the child?
Ruth Marchant, James Rushbrooke, Professor Andrew Rowland

Refreshment break and poster viewing Hall 3

Session two: Serious case reviews
Chair: Dr Shade Alu
Nicholas Dann - Member of the National Panel for Serious Case Reviews, Head of International Development at the Air Accidents Investigation Branch
Question and answer

Session three: Free papers
Chair: Dr Shade Alu
1. What is the association between epistaxis and asphyxiation in children under two years? A systematic review, Ms Philippa Rees, G45
2. A Clinical Prediction Tool (CPT) to identify maltreatment in children with burns and scalds, Professor Alison Kemp, G46

Session four: Preview of 2015 update of ‘The physical signs of child sexual abuse’
Chair: Dr Geoff Debelle
- Dr Amanda Thomas: Introduction and overview
- Dr Jean Price: Genital bleeding
- Professor Neil McIntosh: Changes to the anal chapter
- Professor Jacqui Mok: Healing of anogenital signs
- Dr Karen Rogstad: Sexually transmitted infections

Session five: Free papers
Chair: Dr Geoff Debelle
3. A system for assessing the risk of female genital mutilation (FGM) for female infants born to mothers who have undergone FGM, Dr A Flower, G48
4. Skeletal surveys in patients <2yo presenting with fractures to the ED department: When are they appropriate? Dr Sinead McGlacken-Byrne, G49

Summary and close
Chair: Dr Geoff Debelle and Dr Shade Alu

Posters
Sibling child protection (CP) medicals are currently conducted on an ad hoc basis; the need for national minimum standards for identification and examination of this vulnerable group, Dr Lynda Ehizode, G50(P)
A review of child sexual abuse (CSA) reports, Dr Samundeeswari Deepak, G51(P)
Evaluating a safeguarding peer review and reflective supervision intervention: exploring paediatricians’ participation and learning, Dr Barbara Stewart, G52(P)
Listening to children and young people - The voice of the child in child protection medicals, Mr James Dunne, Dr Ellie Hall, G53(P)
Pain in the neck! Non-accidental, non-lethal attempted strangulation in children. A descriptive study of six cases seen in a year, Dr Vidya Rao, G54(P)
Female genital mutilation: a survey of awareness, training and current practice, Dr Tamara Roberts, G55(P)
Female genital mutilation: knowledge, training and experience of healthcare professionals at a London hospital, Dr Raheel Gabrasadig, G56(P)
Fostering resilience: the promotion of resilience in young people who are looked after, Dr Adele Yeadon, G57(P)
Multi-agency review of child protection medical reports, Dr Isabel Wilson, G58(P)
**Conference Programme**

**Advocating for children in a rapidly changing world**

---

**Posters**

Outcome of mild traumatic brain injury (TBI) in children- results from a prospective UK cohort study,
- Dr Puja Mehta, G62(P)

Disease pattern, bacteriological profile & outcome of childhood acute bacterial meningitis,
- Dr A Bari, Dr F Zeeshan, Dr A Waheed Rathore, G63(P)

Focal seizure, hemiparasia, hemiplagia and NMDA receptor antibody encephalitis - atypical presentation,
- Dr D Onyekwere, G64(P)

Neuropsychiatric presentation of antibody negative limbic encephalitis, Dr Kamani Moodley, G65(P)

Interesting cases of Pyridoxine dependent epilepsy in late childhood, Dr Siddhar Jain, G66(P)

Childhood Parkinsonism: a rare complication of hypoxic brain injury, Dr Manish Ramphul, G67(P)

A Retrospective review of epilepsy related admissions to the paediatric department at a district general NHS Trust, England, Dr Tristan KW Ramcharan, G68(P)

Narcolepsy - an important but rare paediatric diagnosis, Dr Anna Ratcliffe, C Kallappa, T Ninan G69(P)

Radiological investigations of midline infantile haemangiomas overlying the scalp or spine: five Year Single Centre Experience, Dr Natalia V Cartledge, G70(P)

---

**The skin as a sign post to the central nervous system:**

Hosted by: British Society of Paediatric Dermatology and British Paediatric Neurology Association
Neonatal update for all:
Hosted by: British Association of Perinatal Medicine

Room: Hall 8a

Chair: Dr Gopi Menon, Edinburgh

1330–1400 Guest speaker – Quality improvement in neonatal care
Dr Cora Doherty, University Hospital Wales, Cardiff

1400–1430 Guest speaker – The good, the bad and the ugly of neonatal simulation training
Dr Jonathan Cusack, Leicester Royal Infirmary and Dr Richard Hearn, Royal Victoria Infirmary

1430–1445 Restricting visitors to the NICU significantly reduces nosocomial viral respiratory tract infections in babies,
Dr Arathi Lakshmanan, G109

1445–1500 The validity of standardised two-year neurodevelopmental status assessed during routine NHS follow-up of children born <30 weeks’ gestation,
Dr Hilary S Wong, G110

1500–1530 Refreshment break and poster viewing

1530–1545 Impact of transcutaneous bilirubinometer testing on babies with visible jaundice by community midwives on hospital referrals,
Dr Arun Ramachandran
Dr Rachel Morris, G111

1545–1600 Chorioamnionitis in preterm infants is not associated with brain size and maturation at term equivalent age,
Dr Claire L Granger, G112

1600–1630 Guest Speaker – Neonatal Abstinence - not just a problem for the newborn period
Dr Helen MacTIER, Princess Royal Maternity, Glasgow

1630–1700 Guest speaker - Medicolegal Issues in Neonatology
Dr Simon Newell, Leeds General Infirmary

1700–1730 Discussion

Posters

Survival in infants born at less than 24 weeks gestation – a population based study,
Dr Sangeeta Tiwary, G113(P)

The effects of sleeping position on the ventilatory response to hypoxia and hypercapnia,
Dr T Rossor, G114(P)

Genetic and epigenetic variations and gene methylation in Infants exposed to methadone in-utero,
Dr Helen Maclay, G115(P)

The human gut is probably sterile at birth,
Dr Shoaib Khan, G116(P)

Impact of an early warning system for nursing observations in at-risk neonates in the post natal wards,
Dr Matt Nash, G117(P)

Living with chronic lung disease (CLD); children and parents perspectives,
Dr Lucy Bray, G118(P)

Patient safety incident reporting data trends of a regional neonatal transfer service,
Dr Sarah L Davidson, G119(P)

Food protein induced enterocolitis syndrome (FPIES) is an important differential diagnosis of necrotizing enterocolitis in preterm infants,
Dr Matthew Nash, G120(P)

Service evaluation of management of term neonates with major perinatal blood loss,
Dr Rebekka Jones, G121(P)

Melatonin and immune cell responses in neonatal encephalopathy,
Dr Jean Donnelly, G122(P)

Survey of delivery room practice: resuscitation of extreme preterm infants,
Dr Sarah Al-Jilaihawi, G123(P)

Is it time to enforce rigorous infection control guidelines for visitors attending the neonatal intensive care unit? Dr Hoda Yaseen, G124(P)

UK transfusion-associated necrotising enterocolitis cases identified through a multicentre audit,
Dr S Hamad, G125(P)

An audit on home nasogastric tube feeding practices in a regional neonatal unit,
Dr Naveen Athiraman, G126(P)

Is the neonatal life support course really that stressful?: An observational study, Dr Nicola Holme, G127(P)

The effect of individualised care on maternal anxiety and depression, Dr Priyen Shah, G129(P)

What is the efficacy of nitric oxide in neonates with preterm prolonged rupture of membranes?
Dr Sanchita Pal, G130(P)

Microbiological flora and their sensitivities to antibiotics, in a tertiary neonatal unit at north east of England,
Dr H Dumelow, G131(P)

Impact of implementing national guidelines on ‘antibiotics for early-onset neonatal infection’ on a level 2 neonatal unit,
Dr Eileen Liew, Dr A Moylan, G132(P)

Persistent pulmonary hypertension in newborns following preterm rupture of membranes- a case series,
Dr Gillian Campbell, G133(P)

Questionnaire based national surveys – the hurdles and heart aches!
Dr Arathi Lakshmanan, G134(P)

Chasing the Welsh dragon: a review of the outcome of infants with neonatal abstinence syndrome over a 10 year period,
Dr Jojan Joy, G135(P)

A 4 years review of conjugated hyperbilirubinaemia in a tertiary neonatal referral centre,
Dr Rana Ali, G136(P)

Patent ductus arteriosus of prematurity: to treat or not to treat?
Dr VM Seththali, G137(P)

The rapid debrief: a tool that transforms learning and system change, Dr Radhika Puttha, G138(P)

Advanced neonatal emergencies: confidence and experience levels of new registrars,
Dr Jaya Parasuraman, G139(P)

Monitoring respiratory function parameters in ventilated infants during inter-hospital emergency neonatal transport,
Dr P Bhat, G140(P)

Are antibiotics administered within one hour in suspected neonatal sepsis as per NICE guidelines?
Dr Elizabeth Oakley-Hannibal, G142(P)

Cerebral function monitoring (CFM) as a prognostic bedside tool,
Dr Jayanthi Murali, G144(P)

Hypoxic ischaemic encephalopathy in transport: how has the introduction of cooling and end tidal co2 monitoring affected our patients?
Dr John Williams, G146(P)

Indomethacin vs ibuprofen to treat patent ductus arteriosus (PDA) in neonates <3weeks gestation reduced the incidence of necrotizing enterocolitis (NEC),
Dr Alexandra Briscoe, G145(P)

Posters

Improving the recognition of domestic violence in an urban emergency department, Ms S Timmis, G77(P)

Favourable event reporting forms: learning from positive practice, Dr Clarissa Chase, G78(P)

Investigation of children with suspected skull fracture – service evaluation at two centres, Dr M Lyttle, G79(P)

Optimising multivitamin supplementation in paediatric emergency department (ED) patients – a health promotion initiative, Dr Stuart Hartshorn, G80(P)

Safety of “single checker” patient group directives for selected medications during initial nurse assessment in the emergency department (ED), Dr Chris Bird, G81(P)

Emergency department management of children with decompensating inherited metabolic disease, Dr Mark Lyttle, G83(P)

Cultural risk of foreign body aspiration, Dr Omer Aziz, G84(P)

Follow up of asymptomatic microscopic haematuria/proteinuria – different perspectives of paediatric emergency medicine, general paediatrics and paediatric nephrology. Dr Richard A Hastings, G85(P)

Paediatric advanced trauma skills (pats): a new advanced trauma course for multidisciplinary staff, Dr Amutha Anpananthar, G86(P)

Providing safer resuscitations in small hospitals and clinical sites with infrequent resuscitations. Dr Radhka Puttha, G87(P)

Which intravenous bronchodilator? Is lack of clear guidance increasing variation in practice? Dr B Azadi, G88(P)

Accidental ingestion of potentially harmful substances: analysing paediatric emergency department presentations to guide health promotion advice and triage, Dr Katie M Knight, G89(P)

N2O laughing matter, Dr Kirsty-Anne Noble, G90(P)

Salicylate levels in paediatric intentional overdose – are we over investigating? Dr Jessica Daniel, G91(P)

Paediatric cardiac murmur guideline for the children’s emergency department, Dr M Ranaweera, G92(P)

Do as i say, not as i do? Differences between perceived and actual practice in the follow up of microscopic haematuria/proteinuria in febrile children seen in the children’s emergency department, Dr Richard A Hastings, G93(P)

Emergency department team wellbeing. How happy are we really? Dr Antonia Bull, G94(P)

Best practice: one or two doses of dexamethasone for the treatment of croup? Dr Fozia Roked, G95(P)

Optimising facial imaging for trauma in a paediatric emergency department (ED), Dr S Hartshorn, G96(P)

Audit of safeguarding of children presenting with dog bites to the emergency department, Dr Tim J van Hasselt, G97(P)

Anaphylaxis or allergic reaction: service evaluation in a district general hospital, Dr Sobia Bilal, G98(P)

Resuscitating resus, Dr Claire Edmondson, G99(P)

Prescribing the remedy: co-located out-of-hours GP – what would this actually mean for a paediatric emergency department?, Dr Steven Foster, G100(P)

Time for better normal ranges? The impact of discontinuities in normal ranges for heart and respiratory rate in paediatric A&E, Dr Andrew J McArthie, G101(P)

The characteristics of drug and alcohol-related presentations to the emergency department amongst adolescents, Dr Saurabh Patwardhan, G102(P)

Analysis of conjunctivitis management in paediatric emergency department, Dr Patrick McCrossan, G103(P)

Resuscitation experience of professionals at a district general hospital (DGH), Dr Shakir Saeed, G104(P)

StreetDoctors - Are we still making an impact? Miss Clare M Reeder, CHN Johnson, G105(P)

Inappropriate ambulance use in paediatrics, Dr Kate Blundell, G106(P)

The development of a consultant paediatrician phone-line for general practitioners, Dr Rachael C Mitchell, G107(P)

In paediatric cardiopulmonary arrest are supraglottic airway devices (SAD) adequate for oxygenating and ventilating? Dr Eleanor Day, G108(P)

Chair: Dr Ari Kannivelu, Shrewsbury & Telford Hospital NHS Trust
Dr Pradip Thakker, Queens Medical Centre, Nottingham

1300-1345 Lunch with PECSIG General Body Meeting

1345-1415 Guest speaker - Functional Echocardiography in NICU – Dr Yogen Singh, Cambridge University Hospitals NHS Foundation Trust

1415-1445 Guest speaker - Management of Persistent Pulmonary Hypertension in Neonates, Dr Simon Clark, Sheffield Teaching Hospitals NHS Foundation Trust

1445-1457 A review of the availability of paediatricians with expertise in cardiology services in the United Kingdom, Ms Hannah Andrews, G159

1457-1509 Neonatal pulse oximetry screening: an evaluation of current clinical practice, Miss Rebecca Hulbert, G160

1509-1521 Transposition of great arteries, a 15 year experience of 74 patients in Wales: incorporation of outflow tract view in the antenatal scans leading to better antenatal detection and clinical outcomes, Dr S Nittur, G161

1521-1533 Impact of national prenatal screening guidelines on the detection rates of transposition of the great arteries in neonates undergoing the arterial switch procedure, Dr JL Heaps, G162

1533-1545 A review of the clinical practice of PECs (paediatricians with expertise in cardiology) in the UK, Dr Yogen Singh, G163

1545-1615 Coffee break and poster viewing Hall 3

1615-1645 Guest speaker - Hypertension in children - What a Paediatrician needs to know? – Dr Anjum Gandhi, Heart of England Hospitals NHS Foundation Trust

1645-1715 Guest speaker - Interventional cardiology in the 21st century – when is it a replacement for cardiac surgery? – Dr Chetan Mehta, Birmingham Children’s Hospital NHS Trust

1715-1727 Signs of deterioration in infants discharged home following congenital heart surgery in the first year of life: a qualitative study, Dr Jeni Tregay, G165

1727-1739 Risk of death or emergency readmission following discharge after infant cardiac intervention for congenital heart disease, Dr Rachel Knowles, G166

1739-1750 Prize for best oral and poster presentations and close

**Posters**

- Innovative E-learning: A UK initiative to advance undergraduate paediatric medical education, Dr Stuart Vernon, G185(P)
- The use of simulation to teach medical students how to recognise and manage a sick child - A cluster randomised trial, Dr Benita Morrisey, G189(P)
- What do Paediatricians and General Practitioners think should be included in the undergraduate paediatric curriculum? Miss Daisy Wylam, G190(P)
- Survey to Investigate Neonatal knowledge and experience amongst newly qualified General Practitioners, Dr Sofia Omar and Dr M Dhami, G182(P)
- So you want to be a paediatrician? Dr Amutha Anpananthar, G191(P)
- Aiding transition from ST3 – ST4 in Paediatric trainees. The results of a survey of both trainees and trainers, Dr Jon Keene, G188(P)
- The "Case Exchange”- Integrating patients as educators as part of a new regional Paediatric teaching programme, Dr Afsoon Sepahzad, G184(P)
- Reflections on safeguarding training: what new skills do paediatric trainees value? Dr Katherine Fawbert, G181(P)
- Learning Together Study Days: Cross specialty education to improve Children and Young People’s Health, Dr David James, G183(P)
- Multi-source feedback- Does it really encourage change? A qualitative study exploring paediatric trainees’ perceptions of multisource feedback, Dr Nadia Amin, G186(P)
- “The Day the Simulator Died” - A Pilot, Dr Louise Budd, G192(P)
- Aiming for the apex – real-time assessment of teaching using medical students in a compulsory, multi-station postgraduate assessment to assess the “does” at the top of Miller’s pyramid, Dr Ashley Reece, G187(P)
Room: Hall 8b

Chairs: Dr Neil Wimalasundera and Dr Christine Burren

1345-1350 Introduction - Dr Neil Wimalasundera and Dr Christine Burren

1350-1425 Guest speaker - Nutrition in paediatric disability
Professor Peter Sullivan Consultant paediatric gastroenterologist

1425-1435 Magnetic resonance imaging (MRI) scans in children with neurodevelopmental disabilities: should a paediatric neuroradiologist’s opinion be sought? Dr Manjula Govindshenoy, G193

1435-1445 Vitamin D and vitamin D deficiency: How much do parents know? Mr Richard Carr, G194

1445-1520 Guest speaker - Optimising bone health in children with disability
Dr Paul Arundel Consultant in paediatric metabolic bone disease

1520-1550 Refreshment break and poster viewing Hall 3

1550-1625 Guest speaker - Osteogenesis imperfecta; A neu-rodisability perspective Dr Catherine DeVile Consultant paediatric neurologist

1625-1635 What are the long term clinical outcomes of spinal dysraphias in children? Dr Sanchita Pal, G195

1635-1645 What do children and young people with learning disabilities want from hospital services? Dr Kate Oulton, G196

1645-1720 Guest speaker - Scoliosis for the general paediatrician Mr Steve Morris Consultant spinal orthopaedic surgeon

1720-1800 Conclusions and poster viewing

Posters
Neuroimaging in Neurofibromatosis type 1: Outcomes from a targeted approach- experience of a single tertiary centre, Dr Renuka Mithyantha, G197(P)
Child and adolescent psychiatry training during neurodisability grid: an experience by the trainees in the UK, Dr Vivek Mundada, G198(P)
AUDIT of information provided to parents of children with epilepsy, Dr Malihe G Ghazavi, G199(P)
A case highlighting the impact of uncorrected scoliosis, Dr Swathi Sanapala, G200(P)
Do baseline blood pressure and heart rate in children with a spinal cord injury vary depending on their level of injury? Dr Ebba Gustafsson Oberink, G201(P)
Sleep management in Autistic Spectrum Disorder, Miss S Jmor, E Abbas, G202(P)
Status dystonicus presenting in an acute setting in association with viral illnesses, Dr Safia A Jaleel, G203(P)
Fibrodysplasia Ossificans Progressiva (FOP) an unfamiliar disease that is now important to diagnose, Dr Benjamin Jacobs, G205(P)
Recognising the risk factors: Missed opportunities to prevent rickets, Dr Frances A Hutchings, G206(P)
To review the outcome of hip screening ultrasound scan (USS) for developmental dysplasia of hip (DDH) in high risk babies, Dr Pratima Jain, G207(P)
**RCN SYMPOSIUM: Commissioning services for safer children’s care: right time, right place, right professional**

**Room: Hall 10a**

**Chair:** Susan Kirk  
**1345-1350** Introduction  
**1350-1405** Childhood multiple sclerosis: an examination of families experiences, support needs and current service models in the UK, **Professor Susan Kirk**, G17

Wednesday
Plenary II

Room: Hall 1

Chairs: Dr Carol Ewing, Vice-President, Health Services

Professor Stephen Allen, International Officer

0900-0930 Ending all preventable child deaths, Justin Forsyth, CEO, Save the Children

0930-0945 Abstract Presentation: RCT of a motivational lifestyle intervention (the Healthy Eating and Lifestyle Programme (HELP)) for obese young people, Dr D Christie

0945-1000 Abstract Presentation: Long-term effects of acute malnutrition on growth and body composition in Malawian children, Dr N Lelijveld

1000-1015 Abstract Presentation: Delivery of a school health and nutrition programme for Kenyan children: a feasibility study, Dr Ben Eder (supervised by Dr Dan Magnus)

Plenary session II Part 2
(In the presence of HRH The Princess Royal)

1025-1055 The George Frederic Still Memorial Lecture: Child health: Old and new challenges? Professor Peter Piot, Director and Professor of Global Health, London School of Hygiene and Tropical Medicine

1055-1105 Presentations for the Honorary Fellows and James Spence Medal

1105-1115 Her Royal Highness The Princess Royal

1115-1140 Refreshments and poster viewing Hall 3
Symposia and workshops

Avoidable mortality in children and young people - translating research into policy and practice

Following on from the session at the 2014 Annual Conference and the launch of the RCPCH and National Children’s Bureau report *Why children die: death in infants, children and young people in the UK*, this session will take a look at the College’s campaigning work since the launch of the report. There will also be key note presentations from leading researchers in the field of avoidable mortality. Dr Peter Sidebotham will be presenting on ways to reduce avoidable mortality in high income countries, Dr Ciarán Humphreys from Public Health Wales will present an overview of how child deaths are reviewed in Wales through the Child Death Review Programme, and Dr Ingrid Wolfe and Professor Russell Viner will be presenting on ways to track progress in UK child survival.

Patient safety – making it safe for children

1130 – 1135  Welcome, introductions & setting the scene
Chair: Dr Peter-Marc Fortune

1135 – 1145  Session One: Making it Safe Together (MiST) Update
Chair: Dr Peter-Marc Fortune

1145 – 1220  Session Two: Measuring & Reducing ADEs – Lessons from Ohio
Presenter: Steve Muething, Cincinnati Children’s Hospital and Medical Centre

1220 – 1240  Session Three: Standard Infusions, Safety & the rule of 6
Presenter: Adam Sutherland

1240 – 1255  Free Papers
Improving Paediatric Prescribing
Dr Anna Ntovolou, G596
Audit and Re-audit of Distractions during Prescribing in a Paediatric Critical Care Unit,
Dr Karen Chan, G597

1255 – 1300  Summary and Close. Chair: Dr Peter-Marc Fortune

Shape of the future for paediatric education and training: what’s ahead?

The overall aim of this session is to equip College Tutors with the knowledge and skills required to manage developments in paediatric education and training. Topics to include Workforce Update, Shape of Training and Supervised Learning Events. Speakers include Dr Alyson Skinner, College Tutors Representative, Dr Raj Verma, Vice President for Training and Assessment and Dr David Evans, Officer for Assessment.

Promoting child health in Palestine; a partnership between PSP (Pediatric Society Palestine) and RCPCH

Chairs: Ghaleb Zughayar (President PSP) & Margaret Lynch (RCPCH)

Two eminent Palestinian Paediatricians, Hatem Khammash and Samir Khalil will provide an overview of the reality of child health in present day Palestine (Child Health in Palestine - The Facts) and describe the efforts Paediatricians there are making to overcome difficult circumstances in their quest to provide high quality care for children (Via Dolorosa of a Palestinian Paediatrician). Tony Waterston will look at how the RCPCH support for such efforts has led to the building of a strong partnership with the PSP, from the founding of the programme in 1999 to the introduction of a MA in Child Health at Al Quds Medical School in 2013 (From Buckingham Palace to the Hisham Palace - Better Health for Palestine's Children).

Using a child rights approach to advocate for women and children globally

Delegates will have the chance to learn from and quiz expert speakers on how to advocate for children using a child rights approach. The session will include the following talks:

1130  ‘Welcome & introduction’ by Dr Delan Devakumar
1135  ‘Overview of child rights’ by Dr Tony Waterston
1155  ‘Asylum seeking children in Australia’ by Dr Nicki Murdock
1215  ‘Children’s right to health- what are the barriers?’ by Dr Bernie O’Hare

Open discussion and questions

The future of SAS doctors in ever changing NHS

An interesting session for existing and prospective SAS doctors including Trainees. In the light of rapid changes within in the NHS reorganisation, we need to be aware of difficult times ahead and equip ourselves with the necessary skills and credentials. Officers from the RCPCH and GMC will give us an insight into the regulations, facts and figures relating to the SAS doctors. Please come along and share your experiences and opinions with us.
RCN SYMPOSIUM: Reflections and new directions in children and young people’s palliative care

Room: Hall 11b

Chair: Jane Coad

1130-1140 Introduction

1140-1155 Reflections and new directions in children and young people’s palliative care,
Professor Jane Coad, G208

1155-1210 Relationships and sexuality in young adults with life-limiting conditions in England,
Ms Maddie Blackburn, G209

1210-1225 Closer to home: Meeting the educational needs of nurses working with children with cancer,
Mrs Linda Sanderson, G210

1225-1240 Breaking bad news: difficult undertaking for healthcare professionals
Mrs Gillian Richardson, G211

1240-1300 Conclusion

Posters
The experiences of nurses caring for children on Paediatric Intensive Care (PIC) who transition from curative to end of life care: A literature review, Miss Jenna Spry, G212(P)
End-of-life care decisions: differing decision making processes, Mrs Emma Popejoy, G213(P)
Blended food for enteral feeding via a gastrostomy, Mrs Suzanne Brown, G214(P)

RCN SYMPOSIUM: Professionalism, NMC revalidation and the code

Room: Executive Room 2

Chairs: Fiona Smith/Alan Tipping

1130-1140 Introduction

1140-1155 Setting and maintaining professional boundaries in paediatric clinical perspectives from an interprofessional perspective,
Miss Rachael Bolland, G215

1155-1210 Developing national guidance on specialist and advanced practice for children and young people’s nurses, Dr Dave Clarke, G216

1210-1225 Transforming children’s nursing within a healthcare organisation through an innovative leadership approach, Mr Joseph Manning, G217

1225-1240 The contribution and impact of specialist and advanced children’s nursing practice to contemporary health care,
Dr Julie Flaherty, G218

1240-1300 Conclusion

Honorary Fellows, Senior Fellows and Senior Members session

Room: Hall 10a

Chair: Professor Andrew Wilkinson, RCPCH Seniors’ representative on Council

1345-1430 Guest Lecture: How vaccines really work, Professor Adam Finn, David Baum Professor of Paediatrics, University of Bristol

Child health history symposium:
Hosted by: British Society for the History of Paediatrics and Child Health

Room: Hall 10a

Chair: Professor Denis Gill

1430-1500 Invited speaker – George Armstrong Lecture: Feeding and child health in early 20th century Derbyshire
Dr Alice Reid, University of Cambridge

1500-1515 Refreshment break and poster viewing

1515-1540 ‘The first day’ – a film recreating 18th-century voluntary hospital child health care,
Dr Andrew Williams

1540-1605 Dr Isaac Henry Gosset (1907-1965) Founder of Northamptonshire Paediatrics, Dr Andrew N Williams, G243

1605-1630 Paediatricians and the development of health play specialists, Dr Richard G Wilson, G244

Awareness levels of the public in Derbyshire about the quality of medicines, Dr Helen Sammons, G299(P)

Empirical aciclovir in the management of febrile neonates, Dr Mildred Iro, G300(P)

Medical Intervention for Children with Medical Complexity (MICMAC), Dr ZS Al-Harthy, G301(P)

Obesity – why do clinicians still turn a “blind eye”, Dr Linnea Ek, Dr Thomas Waterfield, Dr Ruba Shahid, Dr Nisha Nathwani, Carol Lander, G302(P)

Awareness of healthcare professionals about the possibility of substandard medicines, Dr Helen Sammons, Dr Tariq Almuzaini, G303(P)

RCPCH Best Practice Guideline to newborn examination to reduce the prevalence of delayed detection of Cleft Palate (CP), Dr Alex Habel, G304(P)

Referral and investigation of paediatric urinary tract infections in a General Practice setting - Are we getting it right? Dr Naomi Tomlinson, G305(P)

Research and public awareness priorities for south Asian children, young people and their families: A collaborative participatory approach to prioritisation, Dr Rakhee Shah, G306(P)

Evaluating and reducing paediatrics medication errors based on two audits “A multidisciplinary approach”, Dr Dilusha Atukorale, G307(P)

Parents think that ‘Medicines for Children’ reaches NICE places, Miss Megan Thomas, G308(P)

“A Safety Huddles”: Multidisciplinary views regarding the purpose and effectiveness of a novel paediatric situational awareness tool, Dr R Conn, Dr J Adams G309(P)

Audit of discharge letter diagnosis and its effect on clinical coding, Dr Shyh Min Liew, G310(P)

Audit of Spinal Ultrasound (SU) for neonatal sacral dimples, Dr Dhruti Pandya, G311(P)

Single centre, multi-location, interprofessional real time outreach simulation, Dr Claire Wensley, G312(P)

Impact of maternal and fetal inflammatory markers on neonatal and infant adiposity, Dr Jean Donnelly, G313(P)

Can multidisciplinary simulation in a paediatric department improve clinical governance? Dr Hena Salam, G314(P)

Doctors, death and diversity: Are we aware of the cultural needs of parents during bereavement care? Dr Margaret Williams, G315(P)

Chronic and complex care - a model for general paediatric leadership in a tertiary centre, Dr Jennifer Evans, G316(P)

Paediatric standards in a ‘Consultant-delivered Service’, Dr Hannah Spiers, G317(P)

“Doc – I don’t want to take my medicine!” Dr Annabel Greenwood, G318(P)

Echocardiograms in children – a parental perspective, Dr Melanie Ranaweera, G319(P)

Septic baby; have you considered parechovirus meningitis? Dr John Williams, G320(P)

Fix Freddie! Dr Francesca Cleugh, G321(P)

The development of a Paediatric Short Stay Unit, Dr Rachael Mitchell, G322(P)

Transcutaneous bilirubin measurement in neonates with jaundice requiring phototherapy, Dr Ian Evans, G323(P)

To err is human: thematic characterisation of paediatric clinical incidents within a large district general hospital, Dr Simon Li and Dr H Sadreddini, G325(P)

Case series: All that wheezes is not asthma, Dr Fozia Roked, G326(P)

Using regular audit to demonstrate improvements in paediatric and neonatal prescribing, Miss Anastasia Tsyben, G327(P)

Evaluation of medical student perception of performance of a task verses the actual performance, Dr Gail Davison, G328(P)

Trial of a handheld vein illuminator in an acute paediatric department, Dr Eugen-Matthias Strehle, Dr S Kaura, G329(P)

The introduction of a regular prescribing audit and training session for paediatric doctors, Dr Ben Shillitoe, G330(P)

Haemophilia: A lot to learn from a near miss event, Dr Grace Bradley, G331(P)

Excessive daytime sleepiness in teenagers – could it be due to Iron deficiency? Dr Chetana Kallappa, G332(P)
Room: Hall 10b

Chairs: Dr Anna Piggot, Birmingham Children’s Hospital
Dr Kathy Bailey, Nuffield Orthopaedic Centre, Oxford University Hospitals

1345-1415 Guest speaker - Inflammatory bowel disease
Dr Nick Croft, Royal London and the Barts

1415-1430 Has the rising incidence of paediatric inflammatory bowel disease in our region stabilised?
Dr Lakshmiriya Selvarajan, G353

1430-1445 The ongoing rapid and significant rise of incident paediatric onset IBD in Scotland,
Dr Fiona A Jagger, G354

1445-1500 Presenting phenotype of Ulcerative Colitis (UC) in children 2010-13, Dr James J Ashton, G355

1500-1530 Refreshment break and poster tour Hall 3

Chairs: Dr Lucy Howarth, John Radcliffe Hospital, Oxford
Dr Muthana Al Obaidi, Great Ormond Street Hospital

1530-1600 Guest speaker - Classification of Vasculitis
Dr Paul Brogan, Great Ormond Street Hospital

1600-1615 Juvenile idiopathic arthritis and other autoimmune diseases in a nationwide paediatric inflammatory bowel disease cohort, Dr Victoria M Merrick, G356

1615-1630 Chronic Recurrent Multifocal Osteomyelitis (CRMO): The value of Whole Body MRI demonstrated by a series of 13 adult and 34 paediatric patients, Dr A Guha, G357

1630-1645 A Systematic Review to identify the definitions of recovery for paediatric patients with Chronic Fatigue Syndrome (CFS) or Myalgic Encephalomyelitis (ME) used in studies since 1994, N Anderson, G358

1645-1700 The diagnosis, management and outcomes of paediatric eosinophilic oesophagitis: A five-year retrospective analysis of the west of Scotland population, Dr Mark Goddard, G359

1700-1715 The epidemiology and outcome of biliary atresia in Scotland 2002-2013, Miss Emma Sutton, G360

1715-1730 Parental photographic monitoring of ascites, Dr C MacDougall, G361

1730-1800 Guest speaker - Diagnosing and managing abnormal LFTs in children with rheumatologic and gastrointestinal diseases
Dr Sanjay Bansal, Kings College Hospital

1800-1830 Presenting phenotype of Crohn’s Disease (CD) in children 2010-13, Dr James Ashton, G371(P)

Poster tour will take place from 1510 - 1530

Chairs: Dr Mark Tighe, Paediatric Consultant based in Poole Hospital NHS Foundation Trust
Dr Kathryn Bailey

Child nutrition: a ‘need to feed’ future doctors,
Dr Shreya Bali, G362(P)

Infectious complications in biliary atresia: a single centre experience,
Dr Vandana Jain, G363(P)

Management of gastrooesophageal reflux in infants: current practice of diagnosis and treatment in a UK district general hospital,
Dr A Varghese Mathew, Dr Sofia T Belitsi, G364(P)

The use of antibiotic line locks to prevent central venous catheter-associated sepsis in children with intestinal failure on long-term parenteral nutrition, Dr Benita Morrissey, G365(P)

Impedance monitoring in paediatric gastro-oesophageal reflux Disease: an evaluation of its use and clinical value,
Mr Peter Crook, G366(P)

A chubby child: is this a sign of health or malnutrition?
Dr Fatima Ajmal, G367(P)

Dynamics of degree breach structure of liver and degree portal hypertension in children with autoimmune hepatitis and Wilson’s disease, Dr Natalia Evlyukhina, G368(P)

Portal cavernoma and the challenges faced in early infancy, Dr Nicola D Ruth, G369(P)

Fictitious illness due to chronic laxative poisoning: a case report,
Dr Dilusha Atukorale, G370(P)

Presenting phenotype of Crohn’s Disease (CD) in children 2010-13, Dr James Ashton, G371(P)
“Just because we can”...

Hosted by: British Paediatric Respiratory Society, Association for Paediatric Palliative Medicine and Paediatric Intensive Care Medicine

Room: Hall 11a

1345-1400 Introduction and setting the scene
Chair: Adrian Plunkett

1400-1430 Guest speaker - “A collaborative approach to advanced care planning for children and young people” Dr Peter-Marc Fortune

1430-1445 Prolonged invasive ventilation in paediatric intensive care: children resident in England and Wales, 2004-2013, Dr Sarah Fleming, G372

1445-1500 Difficulties with limitation of treatment in paediatric intensive care - improving communication in multi-professional teams, Dr Olugbenga Akinkugbe, G373

1500-1530 Refreshment break and poster viewing Hall 3
Chair: Patrick Carragher

1530-1600 Guest speaker -: “Just because we can…..” Phil Davies, Paul Boutcher

1600-1615 Questions and answers - discussion from the floor

1615-1630 End of life care in hospital. Scope for paediatric palliative care involvement? Dr Lynda Brook, G374

1630-1645 Children with life-limiting or complex chronic conditions in PICU; prevalence, within PICU and long term outcomes. Dr Lorna Fraser, G375
Chair: Dr Iolo Doull (oral presentations G376 - G379)

1650-1705 The role of cardiopulmonary exercise testing in children with cystic fibrosis, Dr Else Weir, G377

1705-1720 Demographics and selected clinical features of paediatric human metapneumovirus Infection, Mr Yury Petrunin, G378

1720-1735 Descriptive analysis of adherence with non-Invasive ventilation in children, Dr Micah Vincent, G379

1735-1745 Closing comments and questions

Posters

Hyponatremia- Cerebral salt wasting, Dr Raj N Anantharaman, G380(P)

Immunoprotective effects of inhaled nitric oxide in newborns with respiratory diseases on mechanically ventilation, Dr Marina Puhtinskaya, G381(P)

Mind the gap! Elevated anions secondary to paracetamol and sepsis, Dr Sarah Hulley, G382(P)

Taking a child home to die: The challenges of discharging a patient home for palliative care from the Paediatric Intensive Care Unit, Mr D Morgan, G383(P)

A Quality Improvement (QI) project to increase the number of ventilated days between unplanned extubations within Paediatric Intensive Care - using real time statistical monitoring, Dr Mark Russell, G384(P)

A twelve month review of paediatric intensive care in Myanmar to guide service development, Dr L Martin, G385(P)

Bronchiolitis: 10-year experience of infants ventilated in a regional Paediatric Intensive Care Unit, Dr Jamie Campbell, G386(P)

Earlier extubation is associated with a reduction in early post-operative complications in children undergoing surgery for non-idiopathic spinal deformity, Dr Catherine M McDougall, G388(P)

A case for early ammonia testing in all encephalopathic patients: Female patients with X-linked Ornithine Transcarbamylase Deficiency, Dr A Ghosh, G389(P)

PICU outcomes of paediatric oncology patients in a tertiary centre, Dr Lekshmy Prasad, G390(P)

Use of non-invasive respiratory support in bronchiolitis: a national survey, Dr Helen Turnham, G391 (P)

Preparing for Paediatric Intensive Care - The development of a Paediatric Intensive Care Unit simulation induction course for trainee doctors, Dr Sitikant Mohapatra, G392(P)

Reduction in prescription errors in a neonatal intensive care unit: a completed audit cycle, Mr Tony Fordham, G393(P)

Infection and wheeze in the first six months of life- an interim analysis of the GO-CHILD birth cohort, Dr Kaninika Basu, G394(P)

Experiences of patients on long term ventilation transferring to adult services, Dr Omendra Narayan, G395(P)

Is infantile laryngomalacia associated with early onset adenotonsilar hypertrophy: a retrospective pilot study, Miss Lisa A Murphy, G396(P)

Hypoxic Challenge Testing- which children are we assessing? Dr Emma Caffrey Oswald, Dr A Midgley-Hunt, Dr JR Clarke G397(P)

Use of video, sound and pulse transit time to improve accuracy of screening for obstructive sleep apnoea in children, Dr Nicola J Rowbotham, G398(P)

Usefulness of pulse transit time in the assessment of children with obstructive sleep apnoea, Dr Nicola J Rowbotham, G399(P)

How useful is recording preferred place of end of life care and place of death as outcome measure in paediatric palliative care? Dr Lynda Brook, G400(P)
Room: Hall 6

**Chair:** Dr Mark Velangi

**1300-1345 Poster preview and lunch**

**1345-1415**
Guest speaker - advances in sickle cell disease
Dr Baba Inusa, Evelina Children’s Hospital

**1415-1430**
Longitudinal assessment of lung function in children with sickle cell disease,
Mr A Lunt, G401

**1430-1445**
The impact of a standardised Transcranial Doppler training programme in screening children with sickle cell disease: a European multi-centre perspective,
Dr S Padayachee, G402

**1445-1530 Poster viewing and refreshment break**

**1530-1600**
Guest speaker - Management of thrombosis in children
Tina Biss, Newcastle upon Tyne Hospitals NHS Foundation Trust

**1600-1630**
Guest speaker - Personalised medicine in Oncology: 100,000 Genomes can’t be wrong
Professor Josef Vormoor, Sir James Spence Institute of Child Health

**1630-1645**
Assessing the value of bone marrow aspirate and trephine in identifying metastatic involvement in children with Ewing’s sarcoma: a retrospective single centre experience,
Dr Madhumita Dandapani, G403

**1645-1700**
Models of key working in children’s cancer care: professionals and parents views,
Dr Ana Martins, G404

**1700-1715**
Defining healthcare professional competence for working with teenagers and young adults with cancer – A BRIGHTLIGHT study,
Dr RM Taylor, G405

**1715-1730**
Coping with cancer - supporting young people’s resilience,
Mrs Helen L. Gravestock, G406

---

**Posters**

Macrocytosis – a rare but serious problem!
Dr Prashant Mani, G407(P)

Cytokine storm associated multi-organ failure with poor neurological outcome, during rituximab administration in a child with relapsed Acute Lymphoblastic Leukaemia and EBV related lymphoproliferative disease.
Dr A Konstantinidis, G408(P)

An evaluation of the transition to adult care for young patients with sickle cell disease.
Dr H Sivaguru, G409(P)

Are adolescents with sickle cell disease satisfied with their outpatient clinic experience?
Dr S Mohun Kemp, G410(P)

A rare case of primary antiphospholipid syndrome,
Dr Jerina Keli, G411(P)

To evaluate the management of acute painful crisis, outcomes of safety and efficacy of codeine in children with sickle cell disease,
Mrs Ofran Almossawi, G412(P)

Prospective study of procalcitonin levels in children with cancer presenting with febrile neutropenia,
Dr Victoria Hemming, G413(P)

A retrospective analysis of steroid induced bradycardia in childhood malignancy: clinical relevance?
Ms Nicola Canfield, G414(P)

Cytomegalovirus infection presenting as recurrent fever in a child receiving standard chemotherapy for acute lymphoblastic leukaemia,
Dr Katrina Macdonald, G415(P)

Hypoglycaemia secondary to 6-mercaptopurine in leukaemia treatment,
Dr Laura Roe, G416(P)

Droplet digital polymerase chain reaction (ddPCR) assessment of deep molecular response in Chronic Myeloid Leukemia (CML),
Miss Manasi Jyothish, G417(P)

Paediatric Oncology Junior Doctor Confidence Survey,
Dr Christina Parfitt, G418(P)
RCN SYMPOSIUM: Safeguarding children: new issues, risks, challenges and solutions

Room: Hall 11b
Chair: Lin Graham-Ray
1345-1355 Introduction
1355-1410 Looked after children’s experiences of nursing in a social care context, Mrs Lin Graham-Ray, G219
1410-1425 Early help in early years: professional review of a universal assessment tool, Dr Tracey Redwood, G221
1425-1445 Conclusion

RCN SYMPOSIUM: Children with disabilities and complex health needs: optimising opportunities and outcomes

Room: Hall 11b
Chair: Jim Blair
1350-1540 Introduction
1540-1555 Does integration make a difference to the lives of children with a disability? Miss Sian Thomas, G228
1555-1610 What mothers do when there is a child with autism and younger siblings in the family: The implementation of the findings of a doctoral study, into a heuristic for the continuous improvement of service user family experience, Mrs Orla S Watt, G229
1610-1625 Supporting parents of children who have complex needs to assess and manage their children's pain: healthcare practitioners' perspectives, Dr Joan M Simons, G230
1625-1640 A study to determine whether changes in the system of caring for children and young people in a same day admission unit could improve quality of care without adversely effecting theatre utilisation, Miss Catherine Stuart, G231
1640-1655 What are parents’ and staff members’ perceptions and experiences of the craniofacial multidisciplinary team clinic as a provider of comprehensive and coordinated care, Miss AR White, G232
1655-1700 Conclusion

RCN SYMPOSIUM: Researching things that matter: getting our priorities right

Room: Executive Room 2
Chair: Professor Margaret Fletcher
1345-1355 Introduction
1355-1410 Does the implementation of a Ventilator Associated Pneumonia (VAP) care bundle reduce incidence of VAP in PICU? Hill, CL, G212
1410-1425 Implementing and evaluating models of family centred care, or children with long term conditions – where next? Smith, G223
1425-1440 A systematic review to determine if undernutrition is prognostic of infection complications in children following surgery, Hill, R, G224
1440-1500 Conclusion

**SPARKS Young Investigator of the Year Medal:**
- Dr Robert Phillips

**Lal Bagh Award for MRCPCH Clinical Examination:**
- Dr Lydia Harrington

**Dr Jisma Joseph Award for MRCPCH Examination:**
- Dr Katie Mageean

**RCPCH Visiting Fellowship 2015**
- Dr Placide Ntigurirwa, Rwanda
- Dr Shima Rakha, Egypt
- Dr Elias Kumbakumba, Uganda
- Dr Abimbola Akindolire, Nigeria

**Dr Ashok Nathwani Fellowship:**
- Dr Rajni Sharma, India.

**Donald Court Fellowship:**
- Dr Khaled Elian
Paediatricians, parliament and the press

Interested in finding out more about how the RCPCH works with the media and politicians? Discover what makes news, top tips for media interviews and how you can work with us to push child health further up the political agenda. Hone your skills at this interactive session for anyone keen to get more involved in advocating for child health.

Paediatric Genomics: Diagnosis as the gateway to treatment

Topics covered within this session:

- List the main advances in technology leading to our understanding of the genome
- Name some newly-described Genomic disorders
- Understand the implications the new technologies and consequent gene discovery has for clinical practice, particularly as regards diagnosis and therapeutics
- Appreciate some of the ethical issues arising from the study of Genomics

1130 – 1200 The Genomics Era: New Tools for educating healthcare practitioners. Dr Kate Tatton-Brown
1200 – 1230 Prof David Fitzpatrick – new technologies and Genomic Disorders
1230 – 1300 Tuberous Sclerosis and mTOR Pathway, Dr Shane McKee

Situation Awareness for Everyone (S.A.F.E) Programme

Situation Awareness for Everyone (S.A.F.E) is a two year programme led by the RCPCH which, in partnership with 12 hospitals, is developing and trialling a suite of quality improvement techniques.

Over the course of the two years, it aims to reduce preventable deaths and error occurring in the UK’s paediatric departments – currently there are an estimated 2,000 preventable deaths each year compared to the best performing countries in Western Europe.

1130 - 1135 Welcome, introductions and setting the scene
Chair: Dr Jonny Taitz, Dr Annie Moulden
1135 - 1150 Session One: What is S.A.F.E? Provide background on the S.A.F.E Programme, and outline the aims, objectives, and progress to date
Presenters: Dr Peter Lachman, S.A.F.E National Clinical Lead
1150 - 1205 Session Two: Standardising a response to deterioration in NSW

Research in action – improving care by improving research

To highlight the range and variety of ground-breaking child health research being undertaken within the UK; to promote the opportunities available for all paediatricians to get involved in leading and supporting high quality research projects; and to demonstrate the impact high quality research has on the treatment of children and young people.

1130 Research in action - an introduction to the session
– Professor Michael Beresford, Director NIHR CRN: Children
1135 Children’s Research within the NIHR CRN – Dr Jonathan Sheffield, Chief Executive of the NIHR Clinical Research Network
1145 The WAIT Study of parent determined oral montelukast therapy for pre-school wheeze - Introduction to the study, key findings, and plans for further research – Prof Jonathan Grigg, Chief Investigator of the WAIT study
1200 Delivering WAIT across multiple settings – Ms Cassie Brady, Clinical Research Facility Sister, Great Ormond Street Hospital
1215 Delivering Paediatric Research - Pharmacy challenges and solutions – Ms Mandy Wan, Paediatric Clinical Trials Pharmacist
1230 Clinical Studies Groups (CSGs) – their role in developing and delivering paediatric research – Prof Saul Faust, Chair CRN: Children CSGs
1245 The role of young people in developing meaningful research – The METFIZZ study – Ms Robyn Challinor, CRN: Children Young Person’s Representative and Ms Jenny Preston, CRN: Children Consumer Involvement Manager
1255 Discussion/closing words – Prof Michael Beresford, Director, NIHR CRN: Children
Your career in paediatrics

An interactive mixture of talks and workshops exploring key issues related to shaping a career in paediatrics.

1130 Successful careers in the 21st century
A short talk describing why careers in the 21st century are changing and what we can learn from people who have successfully navigated the constantly shifting workforce landscape.

Dr Camilla Kingdon

1140 Resilience in the paediatric career
A short talk looking at the importance of building careers resilience so as to be able to cope with ups and downs in a career whether attendees are in the training or non-training grades.

Dr Helen Goodyear

1150 Workshops (attendees can attend one workshop only). Workshops are open to all groups, except where specified

- Working in low resource countries
  Dr Anu Goenka and Dr Dan Magnus

- The paediatric career (med students/FY docs)
  Dr David James

- The Career grade career
  Dr Helen Goodyear
  Dr Camilla Kingdon
  Dr Carol Roberts

1230 Feedback from workshops

1250 RCPCH support for careers

James Clark, Recruitment and Careers Manager
Sarah Fellows, CPD and Revalidation Manager

1300 Close

What makes a good Education and Practice article, and how might you write one

As editors for Education and Practice, we will be discussing some of our favourite papers from the journal, explaining why they were so good, and sharing some of our thoughts and observations about what makes a good paper stand out.

Dr Ian Wacogne, Dr Philippa Prentice, Dr Sam Behjati.

Protecting and advocating for children within research

What is the role of research in improving the health of children and how do we protect children within this setting? In this session, leading experts will discuss these questions and describe how they advocate for children within a research environment. They will describe their recent collaborative work with children and open a discussion with the audience about the questions arising from it.

1130 Welcome and introduction: Dr Delan Devakumar

1140 Nuffield Council of Bioethics: Children in Research.
Professor Bobbie Farsides

1210 Voice Inclusion Participation Empowerment Research (Viper) project.
Ms Zara Todd

1240 Open discussion & Q&A with speakers

Designing simulation scenarios for maximum impact

1335 – 1400 Welcome and Introductions

Dr David Grant, Consultant Paediatric Intensive Care
Director Bristol Paediatric Simulation Programme

1400 - 1430 Educational plan development
Structured approach and overview of principles

1430 – 1530 Scenario design – technical skills (cognitive and task based)
Structured approach and overview of principles
Group work to develop scenario

1530 – 1630 Scenario design – human factors and team training (titration & specific)
Structured approach and overview of principles
Group work to develop scenario

1630 – 1645 Questions and closing remarks
Room: **Hall 8a**

**Chairs:** Dr Doug Simkiss  
Professor Saul Faust

1345-1400 “We can’t change anything that’s happened in their past, but what we can do is help them with some of the internal mess they’ve been left with to deal with”: Healthcare professionals’ experiences of the initial healthcare assessments for unaccompanied asylum seeking children and young people,  
Dr Clare Shortall, G419

1400-1430 Guest speaker - Infection testing in looked after children  
Dr S Patel, University Hospital Southampton

1430-1445 An interim analysis of the GO-CHILD birth cohort shows a high prevalence of nasal symptoms in 12 month old children, Miss Elizabeth Strange, G420

1445-1500 Current causes and risk factors for sudden unexpected death in infancy,  
Dr Jo Garstang, G421

1500-1530 **Refreshment break and poster viewing**  
Hall 3

1530-1545 Dentists, doctors, nurses and neglect: Do you see what I see?  
Dr Susannah Olive, G422

1545-1600 Service evaluation of the management of osteoarticular infection over eight years in a single centre, Dr Alexandra Rodrigues Da Costa, G423

1600-1630 Guest speaker - Anaphylaxis in schools Dr Paul Turner, Imperial College London

1630-1645 Prematurity and the burden of assessment on Autistic Spectrum disorder diagnostic services: A pragmatic approach, Dr H Gillet, G424

1645-1700 Rotavirus viremia and genotype characterization among children with rotavirus diarrhoea presenting to a teaching hospital, Dr Sandra Kwarteng Owusu, G425

1700-1715 Evaluating MMR vaccination coverage of Looked After Children (LAC), are we comparing apples with oranges if we consider this population as one group?  
Dr Sylvia Garry, G426

1715-1800 Guest speaker – Advances in immunisation; focussing on children with disability and immunodeficiencies Dr Matthew Snape, University of Oxford
Posters

Exposure to artificial bright lights from modern electronic media before bedtime may contribute to sleep difficulties in children/young people with/without special needs - 3 patient/ carer sleep hygiene surveys, Dr Susan Ozer, G428(P)

Melatonin use in children with sleep difficulties: An audit of prescription practices amongst east of England community paediatricians, Dr Nicola D Herberholz, G429(P)

Is it possible to have high standards practical pathway for autism spectrum disorder? Dr Abd Tarhini, G430(P)

Audit on looked after children at risk of blood-borne infections, Dr Paraseevi Mikrou, G431(P)

Investigation into an increase in paediatric tuberculosis incidence in Greater Manchester, Dr Emily R Willis, G432(P)

Kikuchi disease with multisystem involvement: a case report, Dr Vinay K Sahu, G433(P)

Prescribing practices for buccal midazolam and its use in the community, Dr Ajith Koshy, G434(P)

Evolution of Looked after children’s (LAC) Regional network – joint medical and nursing input - a novel concept, Dr Renu Jainer, Dr V Sadavarte, G435(P)

A retrospective audit of melatonin prescribing amongst the community paediatricians in a hertfordshire child development centre and cost implications, Dr Nivedita Bajaj, G436(P)

A case of congenital glaucoma in mosaic down’s syndrome (Trisomy 21), Dr Jeremy A Gilmour-White, G437(P)

Comparing the well-being and mental health of looked after children (LAC), Dr Alexandra M Lee, G438(P)

Tale of allergy testing: implementing RCPCH allergy care pathways in a district general hospital, Dr S Bilal, G439(P)

To audit the management of clostridium difficile (C. Difficile) infection in children, Dr R Atterby, G440(P)

Please sir, which is the best school allergy care plan? Dr Jennifer C Mack, G441(P)

What do looked after young people think about the specialist health services they use? Dr Emma Sunderland and Dr K Wood G442(P)

Evaluating user experience in community paediatrics using the friends and family test (FFT), Dr Gauri Bhusari, G443(P)

An audit of the management of anaphylaxis in children in a district general hospital, Dr C Mclaughlin, G444(P)

Diagnosis of an infectious process in newborns born by mothers with chronic inflammatory gynecological diseases, Prof Alexander A Afonin, G445(P)

Promoting engagement of children and young people in allergy clinic via real time feedback tools and social media, Dr Alexandra Brightwell, G446(P)

The innate immunity factors in case of intrauterine herpetic infection, Prof Alexander A Afonin, G447(P)

Nosocomial neonatal listeria monocytogenes transmission: a report of two cases and a review of the literature, Dr Lucy Fullerton, G448(P)

Factors associated with early application of oseltamivir in children with influenza virus infection and outcome, Dr Ramona Onita, G449(P)

Hyperimmunoglobuline E syndrome case presentation, Dr Afaf Badi, G450(P)

Improving school attendance at a special needs school - a service evaluation, Dr Zainab Arslan, G451(P)

Not just a pain in the neck? An unusual case of an infant presenting with a stiff neck, diagnosed with septic arthritis of the atlantoaxial joint and osteomyelitis of the odontoid peg, Dr Sarah Murray, G452(P)

Management of kawasaki disease in a district general hospital. Is there an optimum aspirin dose? Dr Katherine Murtagh, G453(P)

Retrospective survey of child protection case characteristics in an acute and community setting, Dr R Sharma, G454(P)

Improving access and quality of diagnostic services in a developmental and behavioural service for pre-school children - the triage-track model, Dr Swati Singhal, G455(P)

Improving the diagnostic process and delivery of interim intervention for pre-school autism spectrum disorder children in a developmental clinic, Dr Sok Bee Lim, G456(P)

Would some emergency admissions from children’s accident and emergency be suitable for care in the community? Dr Joanna Sutberby, Dr Alice Ewer, G457(P)

Child Safety Week 2014: a questionnaire based survey exploring parental safety practices and the impact of a county-wide safety campaign, Dr Lucy Plumb, G458(P)

Improving the investigation of unexpected infant deaths, Dr Joanna Garstang, G459(P)

Neurocognitive deficits and comorbidities in Neurofibromatosis - experience from a tertiary service, Dr Royden, G460(P)

Characteristics of haemophagocytic lymphohistiocytosis at a tertiary paediatric centre, Dr Fiona Welsh, G461(P)

Capturing t-cell receptors. A potential new modality for targeting hepatic tumours and post-transplantation lymphoproliferative disease (PTLD), Dr Nicola Ruth, G462(P)

Determining the health needs of children with special educational needs, Dr Mandy Rose, G463(P)

Time to discuss prevention strategies for group B streptococcus disease, Dr Sormeh Salehian, G464(P)

The role of the school doctor today: an advocate for children with obesity, Dr Vanessa Impey, G465(P)

Percutaneous endoscopic gastrostomy (PEG) in disabled children - a bench marking exercise, Dr Shashwat Saran, G466(P)

Audit of the Quality of Medical Reports for Children with Special Educational Needs, Dr A Goodson, G467(P)

The majority of referrals from GP to general paediatric outpatient clinic could be managed by alternative methods, Dr Joanna Sutberby, G468(P)

Effectiveness of a novel pathway to reduce Vitamin D deficiency in a high risk population, Dr Elizabeth Leith, G469(P)

Endocrinology, diabetes and nephrology symposium:
Hosted by: British Society for Paediatric Endocrinology and Diabetes and British Association for Paediatric Nephrology

Room: Hall 7

Chair: Dr Sally Hulton

1345 Meeting opens: Welcome

1345-1415 FGF23 in kidney disease
Guest speaker: Dr Nick Shaw, Birmingham

1415-1425 Early medical treatment of gender dysphoria: Baseline characteristics of a UK cohort beginning early intervention, Dr Claire Goedhart, G470

1425-1435 The renal status of the UK Juvenile-SLE cohort, Dr Louise Oni, G471

1435-1445 The pathway to diagnosis of type 1 diabetes in children: analysis of free text responses from a questionnaire study, Dr Hannah Zhu, G472

1445-1455 Outcomes of ABO incompatible kidney transplantation in children, Dr Jelena Stojanovic, G473

1455-1515 Refreshment break and poster viewing Hall 3

1515-1545 Guest speaker - The current use of bone densitometry, Dr Nicola Crabtree, Birmingham

Chair: Professor Paul Dimitri

1545-1555 Variation in patient experience across paediatric diabetes units (pdu) in england and wales and association with glycaemic outcomes, Dr Dimitrios Charalampopoulos, G474

1555-1605 Supporting parents to manage chronic childhood conditions at home: results of a feasibility randomised controlled trial of a new interactive health communication application, Dr Veronica M Swallow, G475

1605-1615 Diabetes mortality trends 1990 to 2010 in the UK compared with the EU15 and the USA, Professor Russell Viner, G476

1615-1625 Identification of novel PAR2 mutation in thrombotic microangiopathy, Dr Patrick Walsh, G477

1625-1655 Guest speaker – Childhood obesity and the metabolic syndrome
Professor Julian Hamilton-Shield, Bristol

1655-1745 Clinical Debate: This house believes that bariatric surgery should be offered to children from 10 years old?
Proposing the motion: Professor Julian Hamilton-Shield
Challenging the motion: Mr Tam Fry

Posters
A case report of trbeta mutation leading to raised T4 levels, Dr Naomi Tomlinson, G478(P)
Adherence to blood glucose monitoring in children and young people with type 1 Diabetes on insulin pump therapy in a teaching hospital, Dr S Punniyakodi, G479(P)
Carbohydrate counting from diagnosis: Is it practical, acceptable and effective? Dr Toby Candler, G480(P)
Insights into factors affecting childhood obesity in United Kingdom migrants of South Asian Origin, Dr LMC Burland, G481(P)
National survey of management during illness (sick-day) of Type 1 diabetes in children and young people, Dr Astha Soni, G483(P)
Is Mean Blood Sugar monitoring with SMART meter a better indicator of control than HbA1C in paediatric diabetes? Dr R Pujara, G484(P)
Acquired hypothyroidism in infantile peritoneal dialysis: the role of iatrogenic iodine exposure, Dr CP Burren, G485(P)
First successful paediatric HLA incompatible renal transplantation in the United Kingdom, Dr Stephen D Marks, G486(P)
Improving renal allograft survival by introducing a multicomponent transition programme for paediatric renal transplant, Mr Ravi D Mistry, G487(P)
A novel use for eculizumab : successful treatment of a child with transplant associated microangiopathic haemolytic anaemia, Dr R West, G488(P)
Treatment of the first episode of childhood idiopathic nephrotic syndrome: a systematic review and meta-analysis, Dr Eleftherios Zolotas, G489(P)
Coombs positive autoimmune haemolytic anaemia complicating post streptococcal glomerulonephritis. (A very rare occurrence), Dr Rajesh Sesham, G490(P)

Advocating for children in a rapidly changing world

CONFERENCE PROGRAMME
# Public mental health - implications for paediatricians

Symposium of the Paediatric Mental Health Association, British Association for Child and Adolescent Public Health, and Ethics and Law Forum

Posters
Baby friendly prevention and management of neonatal hypoglycaemia on postnatal wards,
Dr Claire Matthews, G521(P)
Improving paediatric malaria care in a low resource setting,
Dr Smiti Bihari, G522(P)
The paediatric return to work programme,
Dr Alison Belfitt, G523(P)
Junior doctor essentials: critical incident reporting,
Dr Christina Parfitt,
Dr L Gabott G524(P)
Creating a medication safety culture in PICU,
Dr Ahmed Osman, G525(P)
Quality improvement project on iron infusion therapy in a paediatric haemodialysis unit,
Dr Amitth Nuti, G526(P)
Buckie fractures of the distal radius: increased efficiency and cost savings through a new management pathway,
Dr Katie Knight, G527(P)
RCPCH trainee session,
Dr Jennifer Mitchell, G528(P)
The Paediatric Short Stay Unit: the power of data in tackling a ‘wicked’ problem,
Dr D Hall, Dr A Kamal, Dr F Cleugh, G529 (P)
To give oxygen or not? Are we adhering to local guidelines on administering targeted oxygen therapy to our neonatal population?
Dr Courtney Willis, G530(P)
Improving the safety and quality of handover,
Dr Sophie Williams, G531(P)
The care never stops: Improving child death management,
Dr Camilla Sen, G532(P)
Development and evaluation of standardised follow up pathway for Henoch Schoenlein Purpura,
Dr Helen Unsworth, G533(P)
Improving paediatric clinical outcome indicators by a collaborative retraining of child health professionals,
Dr P Lutalo,
Dr K Knox G534(P)
The development and implementation of a policy promoting parental (patient) involvement in escalation of clinical care,
Dr Melany Webster, G535(P)
The Challenges of setting up a ketamine sedation service in the paediatric ED - learning lessons and effecting change,
Dr E Dewhirst,
Dr T Waterfield, Dr C Whitehouse, G536(P)
Prospective re-audit of central line associated bloodstream infections on the neonatal unit following guideline implementation,
Dr Charlotte Ratcliffe, G537(P)
Reducing prescribing errors by introducing a paediatric prescribing web-based learning module in a tertiary children’s hospital,
Dr Vix Monnelly, G538(P)
Trainee-led quality improvement in enhancing service in community paediatrics,
Dr Elspeth Ferguson, G539(P)
An improvement project to reduce central line associated bloodstream infection (CLABSI) in newborn infants,
Dr Sumaya Mohamed Cassim, G540(P)
Improving the efficiency of procedure lists in paediatric haematology-oncology - A quality improvement project,
Dr Fatima Kagalwala, G541(P)
Planning ahead: implementation of respiratory support for bronchiolitis at designated ward areas outside PICU before the season,
Dr Basheer Tharayil, G542(P)
Improving patient safety and quality of care for regional neonatal services,
Dr Nicholas Hoque, G543(P)
Clinical management and developing service improvement projects (SIP):- our experience,
Dr Srinivas Jyothi, G545(P)
The assessment and management of the febrile child under five in the primary care setting,
Dr Afiya Andrews, G546(P)
‘Just checking’ - implementing a checklist,
Dr Louise Budd, Dr L Bignell, G547(P)
RCPCH trainee session,
Dr Iona Morgan, G548(P)
Learning from excellence: a new paradigm of safety reporting,
Dr Adrian Plunkett, G549(P)
Assessing communication in phlebotomy services in an in-patient setting,
Dr Bethany Singh, Dr S Habeeb,
Dr J Pitchforth G550(P)
Introducing a paediatric mentorship scheme for trainees in the south west region,
Dr Pieter van Hensbergen, G551(P)
Chasing outstanding investigations for patients discharged from the paediatric unit: system change,
Dr Jamal Miah, G552(P)
Resuscitating resus,
Dr Claire Edmondson, G553(P)
Quality improvement in endotracheal intubation in a paediatric emergency department: checklist development and implementation using simulation and action cards,
Dr Hester Taekema Landham, G555(P)
Is mean blood sugar monitoring with SMART meter a better indicator of control than HbA1C in paediatric diabetes?
Dr Reshma Pujara, G556(P)
How to improve paediatric handover; lessons from a quality improvement project,
Dr Sarah Kapur, G557
Mandatory templates for paediatric transfer letters: reducing risk and improving patient care,
Dr EJ Yule, G558(P)
Paediatric community acquired pneumonia - improving management,
Dr Ralph Robertson, G559(P)
Improving the standard of paediatric ward rounds,
Dr E Spoor, G560(P)
Safe use of insulin,
Dr Sophie Tighe, G561(P)
Medical productivity: quality care and quality training,
Dr Emma Coombe, G562(P)
Improving the efficiency and quality discharge of electronic discharge summaries,
Dr Duana Cook, G563(P)
RCPCH trainee session,
Dr Eileen Wedge, Dr M McPhee, G564(P)
Multi-professional workforce task mapping in general paediatrics,
Dr Kenny Orlofski, G565(P)
Checklists for time-critical equipment failure during patient transport,
Dr VJ Monnelly, G566(P)
Improving efficiency and quality of care in the paediatric assessment unit,
Dr Nikola Creasey, G567(P)
Sedation for MRI/CV: A service improvement project,
Dr Maurice Collins, G568(P)
RCPCH trainee session,
Dr T’ng Kwok, G569(P)
Project play - medical students providing care,
Dr Vix Monnelly, Dr L Harlin-Bethel, T Shea, G570(P)
Providing information for parents about transitional care available outside the neonatal unit,
Dr Nicola Crowley, G571(P)
RCPCH trainee session,
Dr Eileen Liew, G572(P)
Improving ease and accuracy of centile calculations with a smartphone implementation of RCPCH UK-WHO growth charts,
Dr Christopher Kelly, G573(P)
Improving patient care throughout paediatric simulation and multi-disciplinary resuscitation training based upon previous serious incidents at a district general hospital,
Dr M Virgilio, G574(P)
Promoting quality in a community paediatric department,
Dr Caroline Furnell, G575(P)
Looked after children at risk of blood-borne infections: A quality improvement audit,
Dr Paraskevi Mikrou, G576(P)
Improving recording of postnatal ward, neonatal observations,
Dr Katherine Parkinson, Dr Y Lim, G577(P)
Potentially preventable unexpected term admissions to neonatal intensive care (NICU),
Dr Claire Granger, G578(P)
Parental perception of neonatal care,
Dr Vijender Reddy Kistareddy, G579(P)
Child safeguarding checklist in the emergency care setting: improving checklist completion rates,
Dr Sarah McLoughlin, G580(P)
Implementation of a paediatric prescribing pocketguide,
Dr Philippa Anna Stiliwell, G581(P)
Operative note quality improvement – examining compliance with the Royal College of Surgeons of England guidelines in a paediatric general surgical unit,
Dr Aoife Ryan, Dr Tara Reeves, G582(P)
Improving interdisciplinary communication on a post natal ward,
Dr E Sturdy, G583(P)
RCPCH trainee session,
Dr Emily Sloper, G584(P)
Transition From Children’s To Adult Diabetes Clinic-Patient’s Views,
Dr Chhaya Patankar, G585(P)
RCPCH trainee session,
Dr Joanne McDermott, G586(P)
Improving Understanding of Children Attending Paediatric Outpatients,
Dr Frances Morrison, G587(P)
RCPCH trainee session,
Dr Lisa Bray, G588(P)
Characterisation of paediatric safety incidents in general practice: a mixed methods analysis,
Ms Philippa Rees, G589(P)
RCPCH trainee session,
Dr Siobhan Jaques, G590(P)
Professor David Dunger

Professor David Dunger is one of the UK’s pre-eminent paediatric researchers. He has a particular interest in the pathophysiology of diabetes during childhood and adolescence and the genetic environmental interactions which determine size at birth and childhood growth. At Cambridge, he has raised £1 million to establish a dedicated diabetes/endocrine clinical facility and has worked with NHS Diabetes, NIHR clinical research networks to develop managed clinical care and a robust research infrastructure in the Eastern Region. As a clinical scientist, he has led his internationally competitive research group to publish over 400 peer reviewed papers and raised over £10 million in grant income. In 2012 he received the Andrea Prader prize from the European Society for Paediatric Endocrinology and was elected a Fellow of the Academy of Medical Science. His research focuses on three key areas: pathogenesis of type 1 diabetes and its complications; Perinatal origins of risk for obesity and type 2 diabetes; and experimental medicine.

For his substantial achievements in all of these areas, he is strongly commended for the James Spence Medal.

Professor Dame Sue Bailey

Professor Dame Sue Bailey is a psychiatrist who has made distinguished contributions in her own field, and has also been a strong supporter of multidisciplinary working in child health. She has an extensive research portfolio within the field of forensic psychiatry, and is a leading academic with a 30-year publication profile. She is the Immediate Past President of the Royal College of Psychiatrists. Throughout her Presidency, Professor Bailey championed the drive towards parity of esteem between physical and mental health, and lobbied strongly and persistently for investment in early years support and services. Professor Bailey has worked closely with RCPCH on a range of initiatives including lobbying for the revision of the Working Together guidance.

Dr Shelley Heard

Professor Shelley Heard is a paediatric medical microbiologist by background. After training at St Bartholomew’s Medical School, she went on to work as a Senior Registrar at Great Ormond Street, and became Senior Lecturer/Honorary Consultant at Barts and the Homerton. However, her key contributions to child health have been through her educational and management roles. As Chief Executive of the Homerton Hospital in East London, Professor Heard championed an ambulatory care model. This culminated in the Homerton being one of the early adopters of ambulatory care for children. She was also Lead Dean for Paediatrics through some of the most turbulent periods of change to training. She championed the establishment of several of our senior academic training posts and programmes. Between 2013-14, she served as Chair of the RCPCH’s Governance Review Project Board. In this capacity, she has helped to lead the RCPCH’s efforts to produce new governing structures.

Dr John Jenkins

Dr John Jenkins has been at the forefront of advancements in child health in Northern Ireland for over 30 years. He has played a pivotal role locally, regionally and within the UK and abroad in a wide range of improvements in clinical care, training and management. At Antrim Hospital he inaugurated an ambulatory paediatric care service which then became the model for similar services throughout the province. He was instrumental in developing clinical networks and the provision of expert advice by telemedicine. As Senior Lecturer his influence has been instrumental in raising standards. Among other offices, he has been a GMC Council Member, Chairman of the GMC Standards and Ethics Committee and lead of UK wide process to revise the GMC publication Good Medical Practice.

Dr Marian Malone

Dr Marian Malone is one of the most important national leaders in the field of paediatric pathology, and has championed the development of this crucially important specialty. She has been consultant and honorary Senior Lecturer at Great Ormond Street since 1986. Within this role she has trained many of the paediatric pathologists in the UK and has also trained many paediatricians in pathology. Dr Malone has been a key member of the RCPCH working party which has produced a series of important four-nations reports and action plans on paediatric mortality (Why Children Die). Within this capacity she has provided important triangulating data from pathology case series to help support the epidemiological data which has formed the basis of these reports and work programmes.
Dr Thomas McInerny

Dr Thomas McInerny was a primary care pediatrician at Panorama Pediatric Group in Rochester, New York, for 41 years and is professor emeritus in the Department of Pediatrics at the University of Rochester Medical Center and Golisano Children’s Hospital. He is immediate past president of the American Academy of Pediatrics (AAP). Dr McInerny has held many elected and appointed positions in the AAP and is editor-in-chief of the AAP Textbook of Pediatric Care and Pediatric Care Online. He has been instrumental in supporting the creation and development of our major project Paediatric Care Online. The AAP’s Pediatric Care Online has served as the inspiration for the RCPCH’s own project, and Dr McInerny has consistently supported the RCPCH’s work on this, being unstintingly generous in giving both time and expertise to help with this important project.

Dr Hassib Narchi

Dr Hassib Narchi’s long-standing contributions to clinical service delivery, medical education and research both in the UK and in the Middle East have significantly contributed to the work and mission of the RCPCH. Dr Narchi was responsible for the development of new paediatric services at ARAMCO Medical Services Organisation in Saudi Arabia and for all paediatric services in this organisation, clinically and administratively. Working as a consultant paediatrician in the Middle East, Dr Narchi has been instrumental in the development of clinical guidelines based on the RCPCH and NICE recommendations. As a professor of paediatrics at the United Arab University since 2006, he has been instrumental in reviewing the paediatric curriculum, the teaching and assessment methods, to bring them closer to the British medical education system. He has been a regular overseas examiner for the RCPCH since 2007 and has organised the RCPCH written examinations in Abu Dhabi between 2010 and 2012.

Dr Ann Prentice

Dr Ann Prentice has dedicated over 30 years to researching the effects of nutrition on infant/child growth and bone health. Her work has focused on the role of calcium and vitamin D in pregnancy and lactation, and infant, child, and adolescent growth both in the UK and internationally. She and her research groups in the UK and The Gambia have focused on the how nutrition influences normal and pathological skeletal maturation in children; lactational performance; changes in pubertal trajectories; and bone loss in lactating women. Her groups have led ground-breaking work on the nutritional composition of breast milk, nutritional requirements for optimal growth and skeletal development. She continues to have active collaborations with clinicians and scientists in South Africa, The Gambia, China, Uganda, and Bangladesh. Recent work has included investigation of the effects of HIV infection/Antiretroviral therapy on growth and skeletal outcomes in Africa.

Dr Angela Thompson

Dr Angela Thompson is an associate specialist who has been responsible for developing one of the best integrated paediatric palliative care services in the country. She has built a team and a model of service which is outstanding and it is no surprise that she was recently awarded the accolade of Wellchild Doctor of the Year and received her prize from Prince Harry. The comprehensive West Midlands Children’s Palliative Care Toolkit she has drawn together contains everything necessary for running an efficient service and is now used across the country. She is a quiet, self-effacing doctor whose passion is to do the best for this very vulnerable group of patients and their families.

Dr Michael Watkinson

Dr Michael Watkinson was Consultant Paediatrician to all the hospitals in East Birmingham from 1985. He was responsible for the development of the level III intensive care unit at Heartlands Hospital, and became a full-time neonatologist in 1998. As the senior consultant in one of Birmingham’s two level III NICUs Mike successfully lead a team that grew from six doctors and 25 nurses into one of 19 doctors and over 80 nurses. Mike Watkinson was appointed Chair of the National Neonatal Audit Programme Project (NNAP) Board in 2010, at the RCPCH. He successfully negotiated the re-funding of the project by HQIP in 2011 and led the growth of the nation-wide programme, now widely recognised as the largest and most successful national audit.

Professor Charlotte Wright

Professor Charlotte Wright is a paediatrician and epidemiologist whose research into growth, nutrition and screening in early childhood has provided important evidence to underpin child health practice worldwide. Her interest in nutrition extends to all aspects of growth and feeding in preschool children and obesity in older children. She previously set up the Parkin Project and the Gateshead Millennium cohort on Tyneside. She holds a personal professorship in Community Child Health at Glasgow University and is based at the Royal Hospital for Sick Children in Glasgow. For the RCPCH, she led the working group which, from 2008, specified and designed the new UK-WHO growth charts. The work of this group has led to the development and wide dissemination of new charts, both in the UK and internationally. The charts have been included in such resources as the PCHR, and have also been widely licensed for use overseas. As such, they constitute one of the RCPCH’s major contributions to improving child health.
